

BUNNINGS ARRIVES AT PORT WEST

In December 2013, Bunnings completed development of a 30,450 square metre Distribution Centre at the Port of Brisbane's Port West Precinct.

Bunnings, Australia's leading retailer of home improvement and outdoor living products, is the first tenant to occupy the land at the new Port West precinct.

The Port West precinct offers an excellent location for the new Queensland Distribution centre, providing access to unrivalled transport connectivity – by road, rail and sea – and immediate access to the Port of Brisbane and Gateway Motorways, to help meet Bunnings' logistics requirements.

Tenants also have access to the Port's world-class cargo handling and warehousing facilities, with over \$1 billion invested in capital works during the last 20 years.

Port West consists of 90 hectares of strategic port land located along the riverfront at Lytton, approximately six kilometres from the Port of Brisbane's Fisherman Islands hub, and is suitable for various uses including distribution centres, logistic providers, warehousing, trucking, motor vehicle storage, container parks and hardstand.
